Pet Safe Replacement Flap Guide

On the far right side, is the **Pet Safe Classic**, a Labrador is standing in a pet door under the heading. Click on **Click for Details** above the dog.

The **Pet Safe Classic Flaps** page will load.

Scroll down to the size/price box at the bottom. Select the size. Note: We do not sell the Medium/Tall size # 10PS03.

Flap replacement.

Replacing the **Pet safe Classic** flap is very easy.

1. From the inside. Remove the security cover.
2. Remove the stainless steel screws in the security cover tracks.
3. Gently pull out the pet door frame.
4. Remove one of the small sheet metal screws at the top of the pet door frame.
5. Slide the old flap out. Slide the new one in. Replace the sheet metal screw.
6. Slide the pet door frame back into the **Pet Door Design** conversion frame opening.
7. Put a dab of white Elmer's glue on the ends of the screws and replace them in the security cover tracks.

Do not over tighten. Just snug is fine.
